Chromebook Care & Support

Now you have a Chromebook! Take good care of this device and it will serve you well. Here are a few important points for your quick reference.

Personalization

On the outside:
- Apply tape that can be removed easily — like blue “painters tape.”
- Put your name on a sticker or tape that you can remove.

On the inside:
- You are responsible for the things that have been put on your Chromebook (think extensions and add-ons). Make sure you know how to remove them.
- Your Desktop Picture — Keep it PG and school appropriate.

Charging & Care

- Bring it to school fully-charged.
- Keep it in its case.
- Leave your charger at home — there are chargers at school if you need them.

Support

- Things not working right? Reboot.
- If you don’t know what you’re doing, take a look at the MyTech Handbook.
- Did you lose it or break it? Contact your school technology representative. To find your school technology representative go to http://MyTech.dpsk12.org

Get Connected

- Your Chromebook will automatically connect when you are at school.
- How to connect away from school — in the bottom right corner of your screen, click on the wifi symbol to see the available networks. Click to join the network, and you’re on your way!
- Map of Off-Campus Public Wifi Networks in Denver — http://dpsk12.info/wifimap
- If you’re on public wifi, be mindful of entering your personal information on websites.
